

WE ARE HIRING!

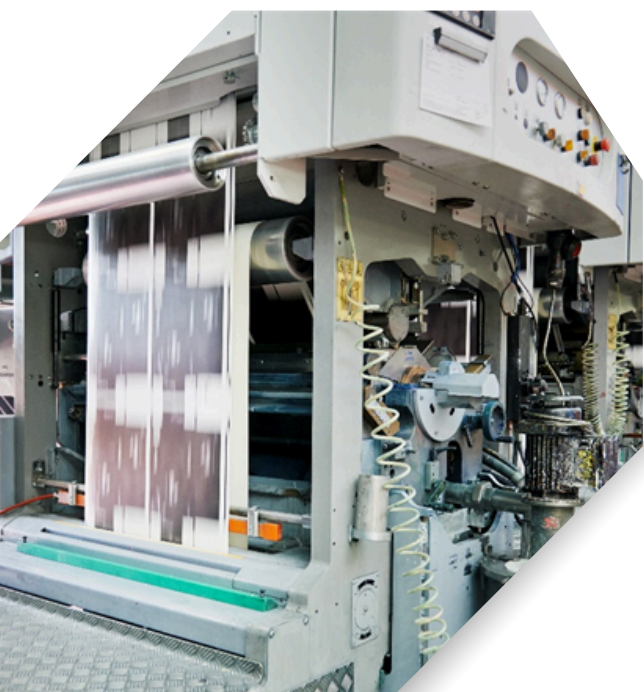

Technical College is an **international center for the development of technical and leadership competencies within Amcor Specialty Cartons**. We support the growth of production employees from sites around the world by creating high-quality training programs, educational tools, and innovative development solutions.

SCOPE OF RESPONSIBILITIES:

- Supporting the organization of technical and leadership training sessions
- Assisting in the preparation of educational materials (presentations, forms, checklists)
- Collaborating with trainers and training participants (in an international environment)
- Participating in projects related to the digitalization and automation of training processes
- Providing administrative and logistical support

WHAT WE OFFER:

- 🌐 International work environment (Europe, Asia, and the Americas);
- 📚 Learning through experience – participation in projects based on the IWS (Integrated Work System) methodology;
- 🧠 Development of soft and hard skills (including printing processes, project work, data analysis, training creation, and digitalization);
- 💬 Improvement of English language and intercultural communication skills;
- 🎯 Mentoring and feedback (support from a dedicated internship supervisor and opportunity to develop your own ideas);
- 💼 Paid internship based on a civil-law contract, full-time;
- 🏠 Possibility of occasional remote work;
- 🎓 Access to internal trainings and educational materials delivered by TC;
- 📌 Opportunity for continued cooperation after the internship.

WHAT WE EXPECT:

- Student status (preferred fields of study: paper and printing technologies, production management, or industrial engineering)
- English proficiency at a minimum B2 level – daily work in an international environment
- Proficiency in MS Office (PowerPoint, Excel, Outlook)
- Strong communication skills, independence, and willingness to learn
- Openness to working in a dynamic production environment
